PRODUCT DATASHEET DP6-692USB

DP6-692USB

(600147)

Programming Station for MOTOROLA radios MTP850.

General Description

The programming station offers to program parallel up to 6 radios with your programming software. As soon as a radio is inserted into a charging slot, it is automatically recognized by the software and can be programmed. In addition to programming, the standard functions of Fast Charge and Trickle Charge are given. As usual is the active function displayed by the two LED on the Charging Slot. A special highlight of the DP6-692USB is the additional possibility of charging an additional battery in each charging slot. This saves space for spare batteries in your Operations Control Center. The Programming station can be connected by USB connection to PC.
