PRODUCT DATASHEET WTC1902SER

WTC1902SER

(600248)

PassivPlus Car Kit for SEPURA radios SC20. Usable with original batteries.

General Description

Beyond to the usual functions of fast charge and trickle charge the PassivPlus Car Kit an external antenna adapter can also be connect. A data interface is also integrated in the WTC1902SER. A RS232 programming cable, for example, can be connected here. Please note the pin assignment (see below).
To use the PEI function, an additional license for the radio is required. The radio is locked by a push mechanism at the top of the Car Kit. The Car Kit is connected to the on-board power supply.
