PRODUCT DATASHEET WTC2113

WTC2113

(600286)

Passive Car Kit for MOTOROLA radio device MXP600/660. Usable with batteries PMNN4801, PMNN4802 and PMNN4582.

General Description

The passive Car Kit is small and compact. It provides the functions of fast charge and trickle charge for your radio in the vehicle. The active function is displayed by the two LED. The Car Kit is connected to the on-board power supply. We recommand to use an original belt clip for a save latch.

Product Hints:

(04.12.2023): We would like to inform you that there is currently a report indicating that the reception strength of the radio in the charging dock may be affected. This issue has been reported in connection with the Performance Package. Our team is actively working on a solution to address this issue. We appreciate your understanding and are available for further information.
